

1/31/67

Dear Jack,

Thanks for the offer of the Oswald radio tape. I do not think it will be important to me so I will not ask you to go to that expense.

There is one Oswald tape I'd like to have if you come accross it in anything you did tape. That is his claim that he was a Patsy, made twice that I know of, once in the corridor at 7:55 the first night and once in his so-called press conference. I'd like the entire tape of that conference. It includes his appeal for legal assistance and has been edited in the official versions and, I understand, at most stations.

I did not see the nastiness in the WJT but would like a copy of it. I intend to do nothing about it, but I'd like to read it and have a copy to keep. If you can spare yours, I'd appreciate it. If it is not yours or you want to keep it, do not bother.

You are, in my belief, right about Lane. I have long feared that.

The Jones children put Batman up. Penn will never take it down now!

Lane and Specter were on BBC for 4¹/₂ hours Saturday night. Specter again retreated from the single-bullet theory, claiming it makes no difference. I'd like a copy of anything you see on this, if you see anything. Liebelser is making a career of but one thing; staying out of a studio with me. He'll debate Lane, but if I go to Calif he files to Wash.

The new book is coming too slowly because I have to spend too much time on other things. I'm still getting in a little work at the archive and getting new material, and I do make appearances when I can.

Should you really want that Oswald-New Orleans tape, it is available commercially ~~wik~~ from a radical-right outfit with the kind of a name that usually is helpful in getting certain kinds of Government subsidies, The Information Council of the Americas. Abbreviation: CIA?

Sincerely,
